Conveyor Belts and systems have been helping to ensure the prosperity and growth of the manufacturing industry globally since decades. These belts are meant to carry medium within a belt conveyor system containing two or more pulleys. We offer high quality Rubber Conveyor Belts in India reinforced with superior quality Nylon/EP fabric to resist abrasion, scratches and cuts.

Duratuf is the One Stop Solution to provide for all types of Rubber Belt Conveyors & Accessories. Our Rubber Belt Conveyors are designed from a special combination of natural & synthetic polymers, different fabrics and interply compounds. They are designed to minimize plant maintenance costs by reducing shut-downs & expensive maintenance towards the belt.

We offer not only flat belting for different applications but also various types of cleated belts to fulfill the most demanding inclination needs of the industry.
